Ideation Phase
Empathize & Discover

Date	4 March 2026
Team ID	SWTID-2026-8059
Project Name	Automating Data Import and Relationship Mapping Using Import Sets & Dot Walking
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple visual tool used to understand the user's behaviors, thoughts, and feelings while interacting with a system.

The benefits include **clear insight into user behavior, reduced errors, improved workflow, better decision-making, and increased user satisfaction**, making processes and systems more effective and aligned with actual user needs.
